Westinghouse Ceiling & Floor Fan Range

Established 1912...

JEANI NECESSITIES

The basis for Jeani Accessories was formed by Mr H A Murray and Mr R C Fitzgibbon using one first floor room in West London.

At that time, Fitzgibbon and Murray Ltd were making hand turned wood products for the furniture trade but as electricity became more widely available, turned wood products such as door bell pushes and bell rosettes were introduced. Gradually as demand for wood products declined, new materials with high insulation properties became available and the company grew to be one of the leading suppliers of electrical components in this country.

The Jeani Accessories trademark was given its first public showing at the British Industries Trade Fair in 1935.

It then moved to the former Horley Brewery buildings in Horley, Surrey. From humble beginnings, through two world wars, The 1930's Depression, fire and flood - Jeani Accessories Ltd joins this millennium at a new location in Derby using the long established trademark as the company name.

Celebrating over 100 years...

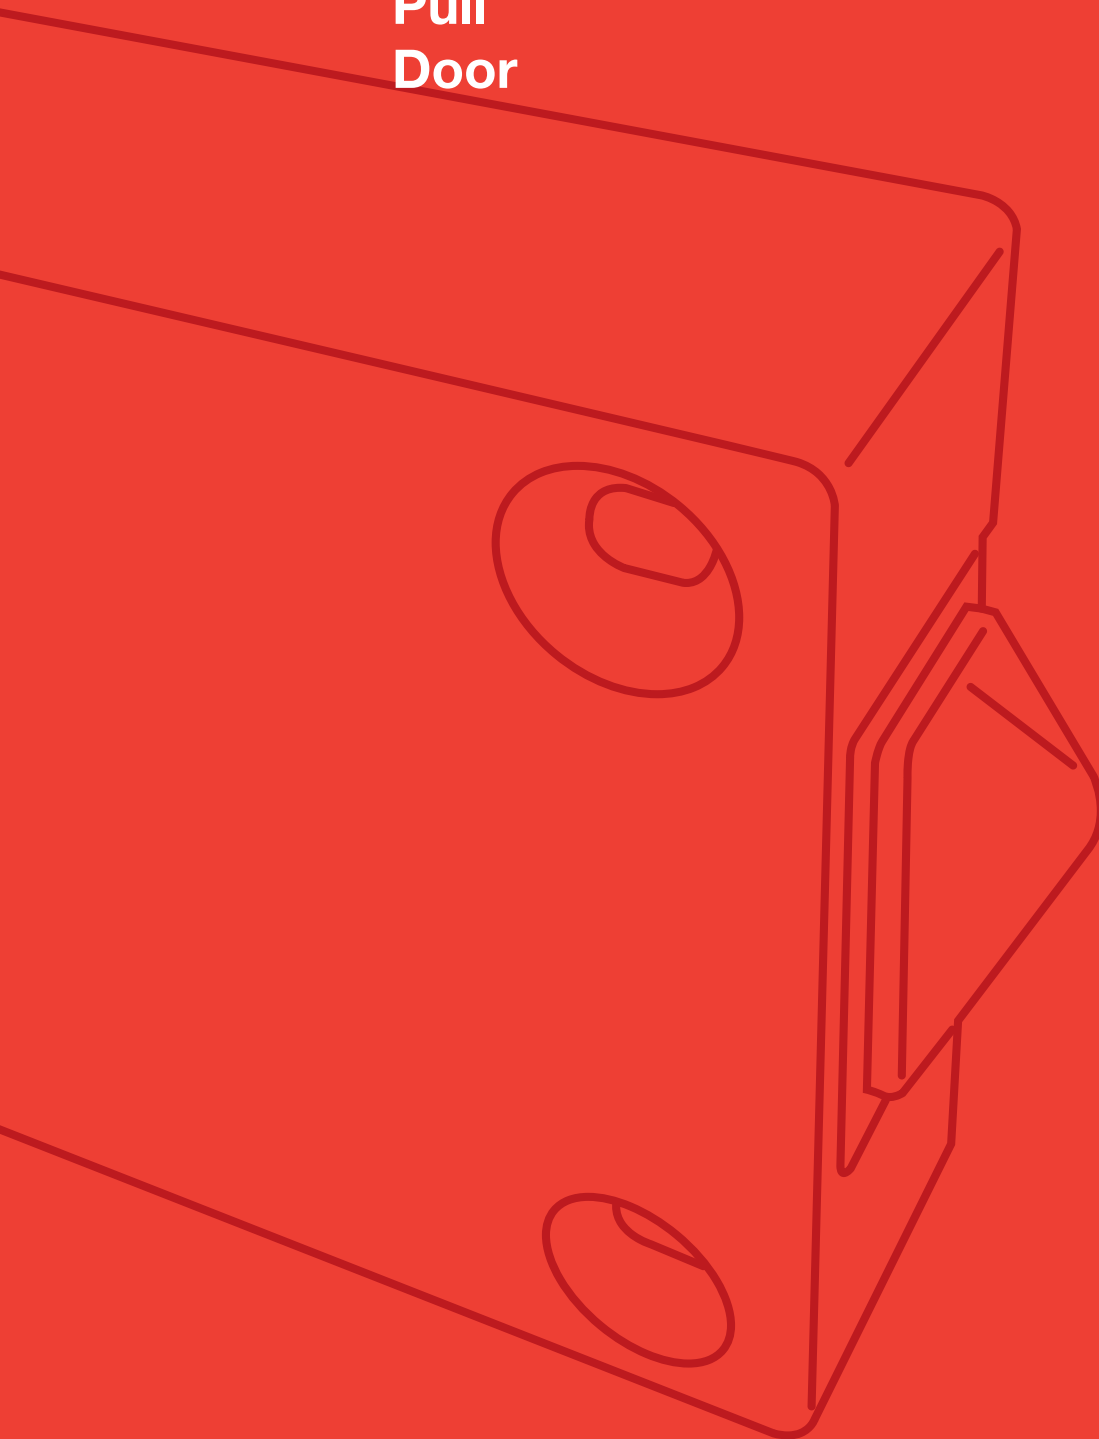

From humble beginnings,
through two world wars,
the 1930's depression, fire
and flood to state of the art
purpose built facilities.

Welcome to Jeani.

**3 Great brands under one roof
- over 100 years of service.**

Guards & Grills

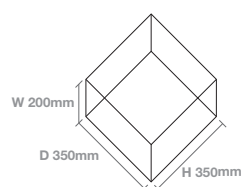

Guards & Grills

A complete range of guards and grills to suit the majority of exterior luminaries and closed circuit TV camera systems.

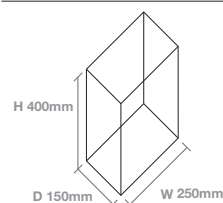

Our welded wire guards and grills are constructed from either 25mm or 50mm steel weld mesh and finished in black/white epoxy polyester electrostatic powder coating, baked in our ovens at 180°C to give a tough weatherproof finish.

The entire range would normally be sited for use in the protection of sports halls, schools, unoccupied buildings and areas of high incidents of vandalism, such as sports grounds, car parks, stations and shopping centres.

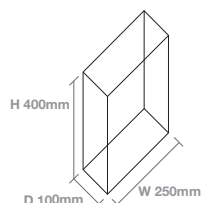

GC01

- Suitable for 500w PIR floods 70w SON & small camera housings
- 50mm Mesh Size

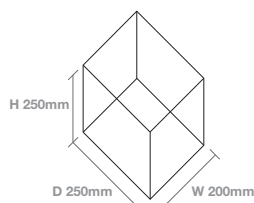

GC02

- Suitable for large bell boxes energy saving bulkheads
- 50mm Mesh Size

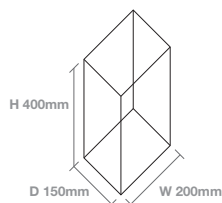

GC03

- Suitable for low profile bell boxes
- 50mm Mesh Size

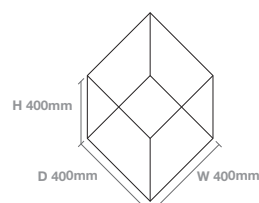

GC04

- Suitable for 500w floods PL flood external and internal PIRS
- 50mm Mesh Size

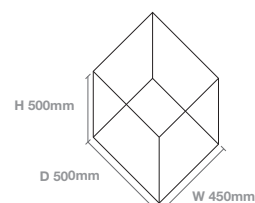

GC05

- Suitable for bulkheads PIR bulkheads and emergency lighting
- 50mm Mesh Size

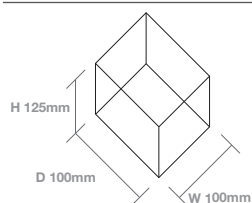

GC06

- Suitable for CCTV/ cameras discharge area floodlights
- 50mm Mesh Size

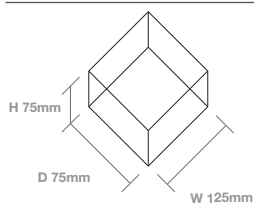

GC07

- Suitable for CCTV/ cameras discharge area floodlights
- 50mm Mesh Size

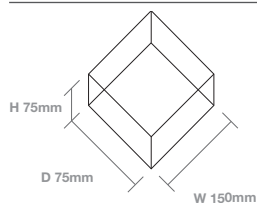

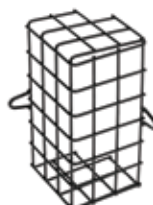

GC08

- Suitable for PIR Smoke Detector
- 25mm Mesh Size

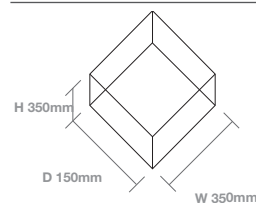

GC09

- Suitable for ext. PIR Smoke Detector
- 25mm Mesh Size

GC10

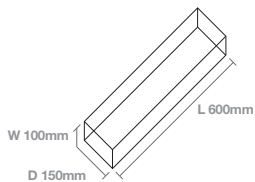

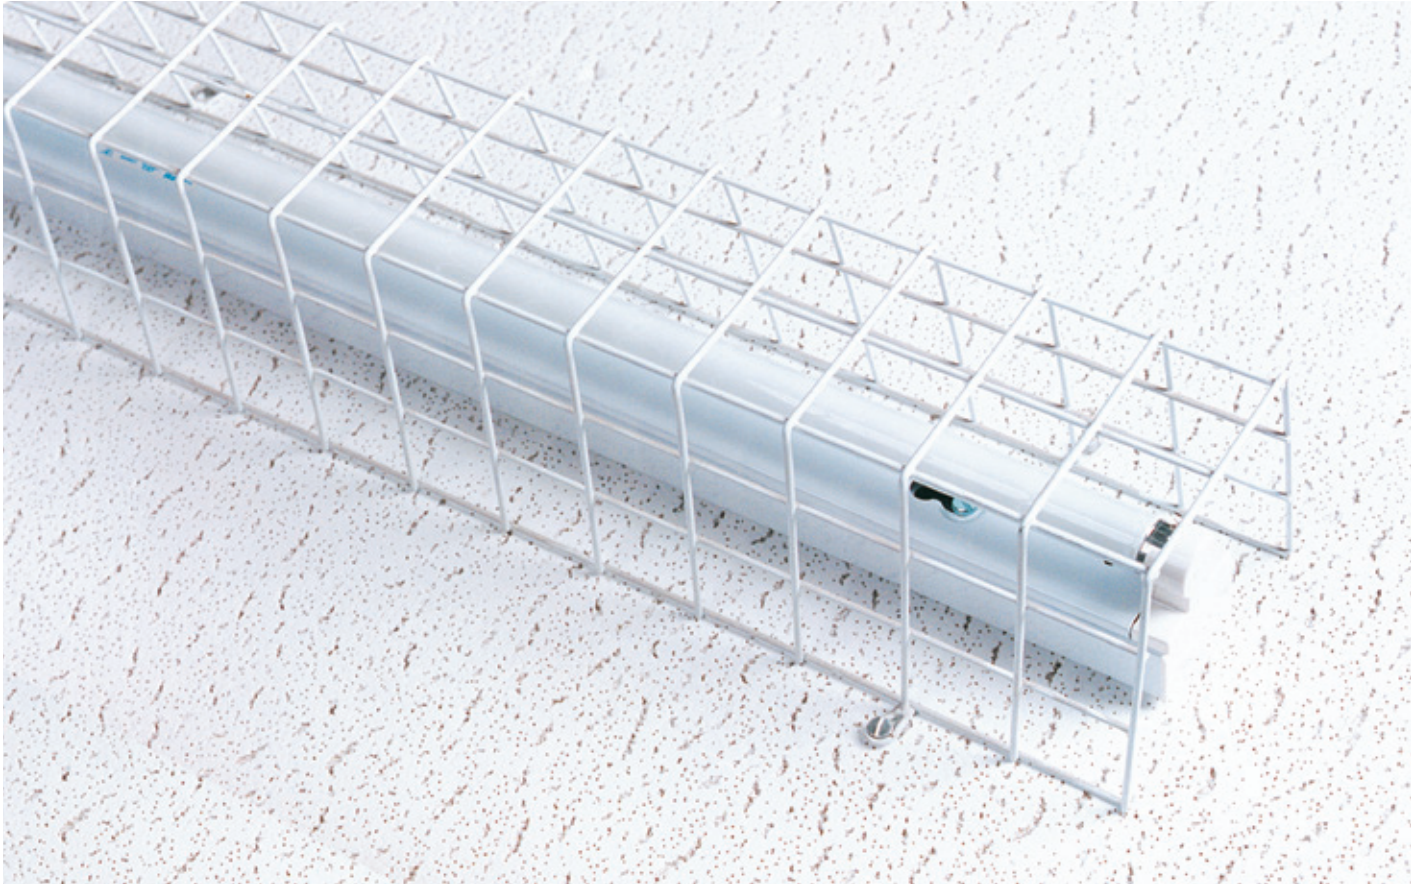

- Suitable for Corner PIR Guard
- 25mm Mesh Size

GC11

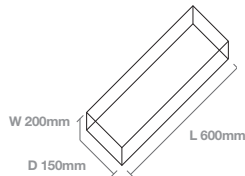

- Black Grill
- 50mm Mesh Size

Guards & Grills

Junction Boxes

PRATLEY

Full colour Pratley catalogue available on request.

Junction Boxes

Ezee-Fit (Non-Corrosive) IP68 Cable Junction Box

Features & Benefits

- Built-in Ex E cable glands
- Ex E and Ex N dual certified
- Quick and easy to fit
- Reinforced, impact and corrosion resistant thermoset material
- Unique encapsulated earth bar ensures earth continuity to all entries
- Internal earth stud
- Accommodates either armoured or un-armoured cables of various sizes
- Numerous accessories available
- IP68 for total water and dust ingress protection
- Suitable for aggressive environments and burying underground (Orange can be supplied on request)

Junction Boxes

Aluminium Alloy (Corrosion Resistant) IP68 Cable Junction Box

IP68 Cable Junction Box

All boxes are supplied standard with built-in glands for SWA cable. Available in three sizes, No 0, 1 and 2, which will accommodate cables from 1.5 mm x 2 core to 16 mm x 4 core. Each size is available in a Two way through box, Three way right angle box and a Four way right angle box. In addition the No. 1 box is available in a Three way Y-type parallel and Four way H-type parallel entry configuration.

Features & Benefits

- Reducing Gland and Reducing Shroud to accommodate smaller size cables
- Mounting Lugs
- Replaceable Gasket
- Full range of box sizes and configurations
- Compression Conversion Kit for un-armoured cable
- Brass Earthing Screw (Optional)
- External Earth Lug
- Built-in Glands for Armoured Cable (no need to order)
- End Connectors and Sleeves
- Stainless Steel Lid Screws
- Epoxy coated - Corrosion resistant lightweight, strong & impact resistant
- Not to be buried underground

Klik Lok (Non-Corrosive) IP68 Cable Junction Box

Features & Benefits

- Built-in Ex E cable glands
- Ex E and Ex N dual certified
- 5-Way box with 4 side entries:
- 2 Side entries blanked off with plugs
- 2 Open side entries & 1 Drill-able bottom entry
- Revolutionary "Click Lock" lid design eliminates cross threading problems
- Domed lid for easy termination of conductors
- Impact resistant and corrosion free
- Long lasting IP68 replaceable sealing gasket
- Patented, invertible cranked terminal rail ensures lots of space for insertion of conductors into Kwikblok terminals
- Integrated earth continuity between entries using patented earthing harness
- 4 Raised mounting feet prevents rocking on uneven surfaces.

Allum Alloy, Ezee Fit, Boxes for SWA/PVC Cable

Envirogland & Enviro Compression

Features & Benefits

- Unique hazardous Ex identification band "The Gland with a Band"
- No special spanners
- Ultra Tough - "WILL NOT CRACK when tightening!"
- High tensile brass internal components
- Built in safety gauge
- Sizes 0-5 Enviro Compression Glands are dual certified for uses on all EE and Exd group II A and II B apparatus
- IP68 rated
- Accessories available

Accessories

End Connectors & Insulating Sleeves for Pratley Aluminium Alloy & Ezee-Fit Boxes

End Connectors & Insulating Sleeves for Pratley Aluminium Alloy & Ezee Fit Boxes. To obtain the correct connector size, the cable cores must not exceed capacity shown for each connector.

For example: 6mm 3 core SWA in a 3 way box would need 6mm x 3 cores = 18mm for each connection.

Three No. 2 connections would be required as the No. 2 connection has a capacity of 32mm.

Size	Core Capacity	Part No.
2	32mm	18110/19
3	70mm	18111/20
4	105mm	18112/21
5	140mm	18113/22
6	280mm	18114/23

Tufflon Blanking Plugs

For Pratley Aluminium Alloy & Ezee-Fit Boxes IP68. Provided for use on entries not required or may be required later, without affecting the IP68 watertight seal.

Size	Part No.
0	57800
1	57801
2	57802
3	57803
4	57804

Reducing Glands and Shrouds

For aluminium alloy boxes

Size	Part No.
1-0	11062/35111
2-0	11063/35211
2-1	11064/35211

For Ezee Fit boxes

Size	Part No.	Size	Part No.	Size	Part No.
3-0	58300/35310	4-0	58400/35410	4-3	58430/35411
3-1	58310/35310	4-1	58410/35410		
3-2	58320/35311	4-2	58420/35411		

The entries of larger boxes may be adapted for smaller cable by using a reducing gland and shroud.

Compression Conversion Kits

Where unarmoured cable is required. The kits are easily fitted to the boxes without affecting the IP68 seal.

Warranty: Ceiling fans backed by our 10 year extended manufacturers warranty on the motor.

***Dual Mount System:** Please note, that the rod which is included into the packaging, does not need to be installed with this ceiling fan. If you want to reach a closer distance from the blades/light fixture to the ceiling, the rod can be left out.

****Down Rod:** When installing the ceiling fan, please be aware, that the rod which is included has to be installed with the fan. Alternatively, you can also replace the smaller rod with a Down Rod of a length between 12"/30.5cm or 18"/46cm, see accessories.

*****Hugger:** This ceiling fan can not be installed with a Down Rod.

*Dual Mount System:

Please note, that the rod which is included into the packaging, does not need to be installed with this ceiling fan. If you want to reach a closer distance from the blades/light fixture to the ceiling, the rod can be left out.

**Down Rod:

When installing the ceiling fan, please be aware, that the rod which is included has to be installed with the fan. Alternatively, you can also replace the smaller rod with a Down Rod of a length between 12"/30,5cm or 18"/46cm, see accessories.

***Hugger:

This ceiling fan can not be installed with a Down Rod.

Warranty: Ceiling fans backed by our 10 year extended manufacturers warranty on the motor.
